ACE AFTERSCHOOL

ACE Afterschool offers a Chinese language immersive enrichment program that supports children's opportunity to expand their language capability while building community in a small group setting. We believe that a high quality after school program meets the needs of youth through academic support, multiculturalism, project-based curriculum that aligns with school day learning, and social support through mentoring relationships.

This program is designed to support Cantonese language learners, either as a supplement to Cantonese immersion school, or extended learning for those learning Cantonese at home, through weekend programs, or who began dual language learning in preschool.

- Low Teacher to Student ratio of 1:12
- Dual language homework support
- Thematic enrichment activities that enhance school day learning including STEAM, Chinese language and culture
- Healthy snack served daily
- Outdoor play at Golden Gate Park
- Walking escort to Wah Mei School from Alice Fong Yu and Jefferson Elementary
